Start Ball Rolling for Fire Bond Vote

We Look Bigger--But It's Because of Miehle's Teeth

This issue of the SUN looks much bigger than usual. It's not because of growing pains, though. Tooth trouble is the reason.

After the first press run yesterday, our trusty Miehle suddenly became ired about something and kicked six teeth out of its transfer gear. Then it settled down for the rest of the day and watched staff members gnash THEIR teeth.

The CONCORD TRANSCRIPT generously came to our rescue and printed the SUN on its eight-column press. That's why we look bigger today—eight columns instead of our customary six.

In addition to gnashing their teeth, staff members adusted their work to the necessities caused by Miehle's inconsiderate behavior. One of these necessities was the combining of the inside pages of the Lafayette Sun and Orinda Sun.

Next week, we hope, Miehle will have all necessary "dental" work done and will be in good humor. Then the SUN will again greet you in its familiar costume.

Orinda Schools Bond Sale Oct. 9

Sale of $137,000 in Orinda Union School District bonds was set Monday by the County Board of Supervisors for 11 a.m. October 9. Sale will be in the board meeting room, Hall of Records, Martinez.

The $137,000 in bonds are the first to be sold since the July 25 approval by the school district voters of a $400,000 bond issue, to be spread over a five-year period.

According to Schools Superintendent Joseph L. Sheaff, the money from the October 9 sale of the bonds will be used for purchase of land for new school units. Sheaff explained that this sale will be for a greater amount than expected last summer because of increased assessed valuations; also, some of the bonds are on hand from prior to the $400,000-issue approval.

The October 9 sales date was fixed by the board at the request of Deputy District Attorney Charles Hemmings, in charge of county school district affairs.

Turn On Heat--73's Too Low!

How high do you turn the thermostat on your furnace? About 75 degrees? Just comfortable temperature then, isn't it?

Well, Orindans could get together and try to convince the weather department they'll have no more of this 73 degree, and lower, business.

Yep, that's the high spot recorded in the week from September 6 to 12, 73 degrees on September 6. To make matters chillier, the low of the week was that same day, with the mercury dropping to 48 degrees.

Where is all the warm weather we were moaning about several weeks ago?

Grass Fire in Orinda Burns Several Acres

Orinda Fire Department men and equipment fought a grass and brush blaze at El Gavilan and La Espiral Wednesday. Several acres were burned over, but nearby homes were not damaged, according to Assistant Fire Chief Allen Winsor.

Orinda, Glorietta School Bus Runs Are Now Clicking

Bus schedules for the Orinda and Glorietta Schools were ironed out during the first few days of school this week, with the result according to Superintendent Joseph L. Sheaff, that all runs were expected to be clicking smoothly by week's end.

Confusion regarding certain morning runs was dispelled with announcement by Sheaff of the following additional schedules:

ORINDA SCHOOL

Bus, starting near Ranch Road at 8:05, comes down Miner Road. After reaching school, it leaves school at 8:25, going along San Pablo Road to Bear Creek Road.

Another bus, for 4th to 8th grade students, leaves school at 8:05, goes along Camino Sobrante La Espiral, around Country Club and back to school. Then it makes the same run a second time, starting from school at 8:25, for 1st to 3rd grade students.

After completing this second run this bus leaves school about 8:40 and goes up to the top of El Toyonal and back, a trip of about 10 minutes.

A third bus leaves Sleep Hollow at 8:20, proceeds around the circle on Don Miguel and reaches school about 8:40.

GLORIETTA SCHOOL

Bus starts picking up students in the Moraga Del Rey section at 8:30, goes up Hardin to La Cresta to Altamount to highway to Camino Del Moraga, then to Don Gabriel-Valley View-Crest View, then to school, arriving at school about 8:50.

Stevens Host to Fire Officials

J. W. Stevens, national secretary-treasurer of the International Association of Fire Chiefs, which is now holding a convention in San Francisco, will be host to the visiting officials at a reception today from 2 until 5 p.m., at his home 50 Scenic Drive.

Hope for Use of New School Units By Early October

Work on additions to the Orinda and Glorietta Grammar Schools was being speeded this week, with the hope that the new rooms will be ready for use by the first week of October.

David Zuckerman of Walnut Creek, contractor, told the Orinda School District Board last week that he would do all he could to hasten completion of the interior of the nine rooms so that, with good luck, the rooms could be used for classes within two weeks after September 18.

WORK REMAINING

Inside work remaining to be done at the time of the board meeting included acoustical tile in the ceilings, asphalt tile on the floors and painting of walls and cabinets.

Once the interiors have been completed and classes have started in the rooms, work can proceed on the outside, he said.

DOUBLE SESSIONS

Until the rooms are ready for occupancy, however, double sessions are necessary in the first three grades of both schools.

Problems raised by delay in construction of the units were discussed by the board with Zuckerman. Originally it had been hoped to have the units completed by start of the Fall term.

Being built are six new classrooms at Glorietta School and three new classrooms at Orinda School.

GLORIETTA JOB

The board last week set 6 p.m. next Tuesday, September 19, as the time for opening of sealed bids for paving, grading and court work at Glorietta School.

Plans and specifications for this work have been prepared by Jack Buchter, architect.

Rotarians Told Of Constitution

Paul Jackson, attorney for the American Automobile Association, chose the United States Constitution as the theme for his talk before Orinda Rotarians at their luncheon session Wednesday.

Rather than the Constitution itself, Jackson gave a stimulating analysis of the history behind its formation and the necessity for drawing up a system of governing laws as exemplified by the document. The speaker expressed his opinion that the Constitution is not outdated, but still has intrinsic value as it was originally written.

Confirmation was made of the addition of three new members to the directing board of Orinda Rotary, Joe Sheaff, Jim Wasley and Jack Buchter. The trio were members of the aims and objects committee, which has been discontinued.

W. J. Seroy had three guests at this week's session, Dr. R. A. Williamson and his son, Dr. Fred Williamson of Andeson, Indiana, and Charles Lane of Dearborn, Michigan.

A thank-you note was received from Rotarian Vic Richit who has been confined at Merritt Hospital since last week, when he suffered a heart attack. His thanks were for a gift from the club.

Members reported a good time and good food at the barbecue held last Friday night at Carroll's Ranch, although the weather had turned a bit colder than was comfortable.

Vacations at Carmel

Mrs. Peggy Brown of Orinda has been vacationing in Carmel.

GYMNASTICS WITH A FLAIR are what goes on these days at Law's Gymnasium. Located at the former SUN office at Moraga Road and Golden Gate Way, the place is the spot where Professor Ray L. Law teaches boys acrobatic tricks and the principles of judo. At left, Pete Law is adroitly hoisting Leonard Law, in a demonstration for the students. The other picture shows Leonard balanced on Pete's knees while some of the boys look on. The students in the front row (left to right) are Bob Kesselring, Steven Paulding, Jeff Babcock and Michael Pond. Lads Learn Acrobatics, Skill, Poise And Sportsmanship at Prof. Law's Gym

By DORIS SAGE

The young boys who left Law's Gymnasium, which is now located in the former SUN office at Moraga Road and Golden Gate Way, after their morning athletic training course last week, were a bright-eyed lot.

Each seemed to stand straighter, to walk with a new assurance — even the smaller boys who couldn't have been more than five years old.

The relation of physical training under expert instruction to acquisition of skill, muscle coordination, sportsmanlike behavior and noticeable improvement in poise was easily apparent to the spectators who watched the group go through their paces during their one-hour class.

REGULAR FEATURE

Professor Ray L. Law, owner of the gymnasium, has just started these training classes in acrobatics and athletic activities as a regular feature in Lafayette after a course held here during the summer months which drew a large following among the youths of the area.

Developer of the Law's American Judo and Jiu-Jitsu system, the professor has trained more than 5,000 boys and girls, men and women in the 14 years he has devoted to the school. His assistants are students who have advanced through the grades of physical adeptness in wrestling, tumbling, Judo and Jiu-Jitsu, many of them having started training with Law when mere youngsters.

ASSISTANT, 14

At the local class visited last week, the 14-year-old boy assistant had been with Professor Law for seven years. His ability in demonstrating the simple wrestling holds in working with the boys and his mature manner in helping them belied his age and gave ample evidence of the poise he had acquired through his athletic training.

Sportsmanship is stressed in the classes, with particular attention paid to mutual respect and etiquette among the boys.

50 SIMPLE TRICKS

The beginning youngsters learn 50 simple acrobatic tricks, with a record carefully kept on their advancement into the next class, which is distinguished by the wearing of pink belts.

Mastery of additional achievements in athletic skills and defense arts is recognized with promotion into the next steps of learning, each class signified by a different-colored belt.

Noticeable in the workout was the spirit of fair play encouraged in the boys. Professor Law explained that their self-confidence is increased through gradual development of those athletic arts in which they did not at first excel, with further advancement given as prompt recognition of improvement.

IN FORMATIVE STAGE

The gymnasium classes are still in their formative stage here, with additional special equipment due for installation in order to give a comprehensive program. Present plans are for class hours two days a week for those youngsters who attend half-day school sessions, and later afternoon classes, also twice a week, for those pupils who attend school all day.

"We stress sportsmanship, good principles and good etiquette as well as developing muscle coordination," Professor Law pointed out.

And these are all a part of the important business of growing up into self-confident, healthy, happy citizens.

Swimming (If Warm Enough), Games Part of Pandora Dinner-Dance on 23rd

To help provide foster homes for "wanted" children is one of the aims of the Pandora (Orinda) Branch of the Children's Home Society of California.

Attending Pandora's dinner dance at Diablo Country Club Saturday, Sept. 23, is one of the ways you can enjoy yourself and at the same time be able to contribute towards the Children's Home Society funds needed for their work for foster homes and "adopted" parents.

As a special feature of the evening, Diablo Country Club has offered its pool for swimming. (Are you hoping for a bit of balmier weather?) If you want to swim, please bring your own swimming suit.

Another attraction will be the playing of bingo.

A foster home is a suitable home where the child is placed so he will be able to adjust happily into the world of a family home. After a careful investigation and consideration of parents and child, he is ready to be a part of his "adopted" home.

Pandora's evening of dining and dancing September 23, to start at 6:30 p.m., will provide good music, pleasant surroundings, a fine dinner and good company.

For information concerning tickets call Mrs. Rudy Rasmussen, Orinda 2874.

Previous Pandora benefits during recent months have included bridge parties at the homes of Mrs. Edwin Merrill, 12 El Pulgara; Mrs. Fred S. Crawshaw, 2 La Vuelta, and Mrs. Alex Poulsen, Van Ripper Lane.

Women Here Publicize Children's Theater

Public relations department of the Esat Bay Children's Theater, Inc., will be guided by Mrs. Marshall A. Shapiro of La Vuelta and ment of the group's president, Mrs. Stuart Hawley, Jr.

Pack 52 Starts Den Meetings, Fall Activities

Committeemen of Orinda Cub Pack 52 held their first joint meeting with pack den mothers at the home of Cubmaster Otto Schrader on Orchard Road September 7 to discuss the year's program.

Decision was made to hold similar sessions on the Tuesday evening following each pack meeting throughout the year. The first regular Cub Pack 52 meeting is scheduled for October 6, with the October 10 committeemen-den mothers meeting to be held at the home of Bob Anthonisen.

DEN MEETINGS

First den meetings of the 1950-51 year were started this week, according to Anthonisen. The "Westward Ho" theme decided upon for development of the program will be reflected in the western flavor of the den activity projects each week.

In keeping with this plan, cubs have been asked to augment their regular uniforms at the October 6 pack meeting with cowboy paraphernalia to carry out the idea.

ACHIEVEMENTS

Cubs are reminded that any achievements should be reported to Joe De Maria by the Wednesday evenings preceding pack meetings, in order to get awards. All dens will be asked to bring their handicraft projects to pack meetings, with one cub from each den to be prepared to explain the display of his group.

Parents of boys interested in becoming cubs are asked to contact Harry Minor, membership chairman, about details. If unable to get in touch with him, interested persons are invited to attend the pack meetings anyway, where they can get further information.

Cubs of Den 2 and their den mothers will be in charge of refreshments at the first pack meeting, which is to be held at Orinda Grammar School, Anthonisen reported.

Supervisors Act To Set Nov. 21 Fire Bonds Vote

Two actions Monday by the Board of Supervisors tied in with current plans of the Orinda Fire Protection District:

1.—The board instructed the district attorney to prepare necessary papers for a $130,000 fire district bond issue election November 21, for the construction of two new fire houses.

2.—The board purchased the site at Orchard Road and Moraga Highway for the new fire house now being planned.

If the $130,000 bond issue passes, $75,000 would be issued at first for a second fire house and for Sleepy Hollow land for a third station.

In buying the Orchard Road-Moraga Highway site from the Moraga Company for $2,850 in fire district funds, the supervisors acted as the governing body for the fire district, in the administration of funds.

Vote Monday At Sewer Bond Election

We Urge Reelection Of Elliott Johnson

(An Editorial)

At the election Monday two men will be selected to fill four-year terms on the Board of Directors of the Central Contra Costa Sanitary District. There are five candidates on the ballot.

This newspaper presents the following recommendations for your consideration:

1. That you and other registered voters in your family be sure to vote.

2. That you cast a ballot for incumbent Elliott Johnson for one of the two posts.

Administration of the Sanitary District is of utmost importance to our community. Indeed, this board is perhaps the most important of any in our community, because it is relatively new and is spending millions of dollars on construction projects that will have to serve us for many years.

Most of us require no more proof of the significance of the Sanitary District than our annual tax bill and our special assessments for installation of sewers in our neighborhood.

Thus, it is the duty of each voter to cast a ballot Monday so that the directors know we are interested in the conduct of the district's business. With five candidates on the ballot, we should help select the two to represent us.

(In this issue you'll find pictures and statements of candidates.)

In recommending the reelection of Elliott Johnson, we are breaking a precedent of not endorsing candidates. But Mr. Johnson's contribution to the sound administration of the Sanitary District has been so great that we believe it should be publicly acknowledged.

Elliott Johnson is a brilliant man; an able attorney who has earned one of the outstanding reputations in California; a long-time resident and home owner who keeps abreast of the changing needs of our community.

He helped form the district and has been a director since its inception.

He has done an excellent job on the board. But we do not recommend his reelection solely because he has worked hard and with no reward for his efforts. Mr. Johnson's faculty for analyzing a problem and cutting through extraneous matter — with amazing speed — is of utmost value to the Sanitary Board. Other directors have valuable qualities along other lines.

For the other directorship we make no recommendation. Fortunately each of the other four candidates is capable and qualified and would do well. It would be an injustice on our part to endorse one of these men over the others.

Candidates for Sanitary Board State Views

The following statements by candidates running for the Contra Costa Sanitary District Board of Directors in next Monday's election were made at the invitation of the SUN.

Four of the five candidates are represented here. The fifth candidate, John O. Matthias of Walnut Creek, does not have a statement because the SUN did not succeed in reaching him, although four phone calls were placed and a communication was sent to his Walnut Creek home.

Elliott Johnson:

ELLIOTT JOHNSON, Lafayette:

I was elected a Director at the time Central Contra Costa County Sanitary District was originally formed and have assisted in developing what was then a mere idea into the going concern which the District now is.

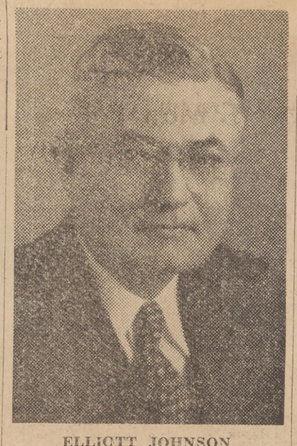

Its disposal plant and the main trunk sewer lines are complete and sewer service can now be made available to the 30,000 acres within its boundaries with the completion of some further collection units. A large portion of the District is now actually being served.

I desire to remain on the Board until these remaining units are constructed and the District operates a complete sewage collection and disposal plant as initially intended and has passed the construction stage.

There are at the present time two areas without collection facilities which are critical and which are now being given attention. There are several other localities where local collection units may or may not be established, depending on the desires of the landowners.

I would like to continue my work on the Board until these operations which were embraced within the original plans and with which I am familiar are completed.

During my four years as a Director my record will show that I have never forgotten that the funds we spent are the money of the taxpayer for whom the Board only

ELLIOTT JOHNSON

acts as a trustee. I have insisted on economy and am firm in the stand that salaries should be no higher than those paid for similar services and responsibilities in private enterprise.

I feel that a serious problem about to confront the Board is that concerning annexed territory. Our system was designed to take care of the needs of the District as originally formed for a period of 30 years, allowing for an estimated increase in population with a margin for some accretion. The point will soon come, if annexations continue at the present rate, where additions at least to the disposal plant are necessary, funds for which could only be raised by a bond issue.

I am opposed to any further annexations which by any remote chance might overload our present facilities at further expense to the existing District.

Neill Cornwall:

NEILL C. CORNWALL, Lafayette:

You have requested a statement concerning the coming Sanitary District election, and in that respect may I say:

I am running for election as a Director of the Central Contra Costa Sanitary District because I believe I can do some things for my community, my friends and my neighbors that will make this area a better place in which to live and bring up children.

Since coming to Lafayette in 1941 I have felt a civic obligation to work for those proposals that in my opinion were for our best interests and to oppose those plans which I have considered visionary, ill conceived or too expensive at the present time.

I helped defeat the first attempt for the formation of a Sanitary District because I felt that the basic information submitted to us was unsound and I worked enthusiastically for the second effort when the problem was presented in a more realistic way.

After the formation of the District I attended all of the Board meetings as an observer until I was satisfied that this new undertaking was off to a sound start. In due course I was invited by the present Board to act as Secretary of the District and later on as one

NEILL CORNWALL

of its Directors to fill the unexpired term of Mr. Weil.

I have enjoyed this work. It requires many hours of tedious attention; considerable independence of thought, since selfish men will try to sway one's judgment to their profit, or to conform with their prejudices. My conclusions, I believe, have been just and have been arrived at after sincere consideration.

However, I am not indispensable. In a democracy no one is. If you want me to do this job, I will do the best I can. If you want some one else to do the job, you have a good list to choose from and I will be there ready and willing to do anything I can to assist them.

Personally I feel a great satisfaction as I realize that partly because of my efforts — no matter in what capacity — this community is becoming a better place in which to bring up families.

If I am reelected I will continue to serve the District in the desire to see that the purposes for which the District was formed are served in the best interests of all of its citizens, and in fairness to each of them.

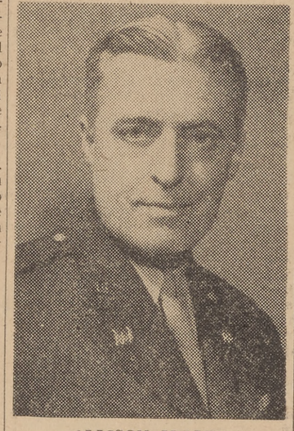

Allison Miller:

ALLISON MILLER, Lafayette:

If elected to the Board of the Central Contra Costa Sanitary District I pledge the people to do my utmost to accomplish two things which I think are badly needed in the District.

First — more economical operation. Good business management must be applied to the operations of the Sanitary District. I believe that more can be done at less cost.

Second — represent the people of the District and not the contractors. The Board should represent the property owners and residents

ALLISON MILLER

of the District and exhibit a more active, friendlier interest in their welfare. There have been too many instances where representatives of the District have appeared, at least, to support contractors against the property owners.

(Miller lists the following details of his background: Engineering graduate of the United States Military Academy, West Point; served as Lieutenant of Engineers, World War I; Colonel of Engineers, World War II. Has supervised the expenditure of over 300 million dollars of engineering projects).

W. M. Malott:

W. M. MALOTT, Pleasant Hill:

Thank you for this opportunity to state my position in the forthcoming election.

When the Sanitary District was formed, Orinda, Lafayette and Walnut Creek were well developed residential districts. Pleasant Hill had yet to display the phenomenal growth of the last years.

The selection of directors was made logically from those areas having the bulk of the population. Now with the development of Pleasant Hill, the population north of Walnut Creek is sufficient to justify representation on the board of Directors.

There is no thought in my mind or by my sponsors that Pleasant Hill has been neglected by the present Board. The desire for rep-

W. M. MALOTT

resentation is based on the practical working requirements of an activity extending from Orinda to Pacheco.

Any hearing of the Sanitary District demonstrates that the problems are to a degree local in nature. Having a member a resident of Pleasant Hill, as there are now members from Orinda, Lafayette and Walnut Creek, should facilitate handling matters in this area and work toward the best interests of the entire Sanitary District.

Pleasant Hill has its share of problems arising from residential areas adjoining small agricultural units. Public acceptance of the District activities can be improved by having a Board member who, while technically not representing a special area, will be available for special study of local problems.

Again, any effort in the direction of satisfying local users of District facilities will allow the Board to work on the major problems which face it in the coming years.

For this reason I do not hesitate to ask for support from our neighboring communities, Walnut Creek, Lafayette and Orinda.

As a registered engineer employed by a progressive chemical company and as a resident for the past 11 years in Orinda, Lafayette and Walnut Creek, and now as a home owner in Pleasant Hill, I believe I am qualified to serve you on your Board of Directors of the Sanitary District.

Supervisors Okay 750 Low-Rent Units To Be Constructed Over 6-Year Period

The Board of Supervisors has unanimously approved a total of 750 low-rent housing units for the county, to be constructed over a six-year period.

In a heated session arguments for and against the program were presented to the board.

Opposition was presented by Fred Kracke, representing the General Contractors Association, and John Hennessey, representing the National Association of Home Builders, and real estate operators.

Results of a partial housing survey previously ordered by the board were presented by Sig Mahler, executive director of the Contra Costa County Housing Authority. Gerould Gill, chairman of the authority delivered a talk on the issue.

REVERSES STAND

Ray Taylor, supervisor from the Martinez-Concord area, explained the reversal from his prior stand with a statement for the record. "The survey has demonstrated the need," he declared, "and there is no other way to meet this need."

Supervisor Jack Cummings of the Crockett-Orinda-Lafayette area explained that due to the serious housing conditions in the county, his position remained unchanged in spite of opposition from certain parts of his district. "I feel it is for the good of the county," Cummings said.

SURVEY PRESENTED

Results of a survey of slum areas were placed in the hands of the Board of Supervisosrs recently by the Housing Authority, represented by Mahler, Gill and Warren Harrold, advisory director.

Sub-standard neighborhoods from North Richmond in the west to Antioch in the east were surveyed by an impartial national firm, Mahler declared.

DETAILS LISTED

Each slum area was carefully covered, with detailed descriptions of such factors as hot and cold running water, plumbing, private toilets and baths, major repairs, number of persons to a house and to a room, levels of income, racial distribution and other items.

Gill had read to the supervisors an opinion of the State Attorney General, which declares that the passage of Proposition 10 would throw the present low-rent housing program into legalistic chaos and might damage the exisiting state aid to the aged and blind.

NEW TAX RATE

It's official now—the 1950-51 county tax rate, that is.

Following adoption of the budget, the Board of Supervisors has fixed the county tax rate at $2.482 per $100 assessed valuation.

Check Last Minute Plans for Westival

Last-minute finishing touches were given the many concessions of the forthcoming Westival (Saturday, September 30) when the 50-odd chairmen met yesterday morning at the home of P.T.A. President Mrs. R. P. Tolles in Happy Valley.

The Westival's general chairman, Mrs. J. Wayland Barnette, gave a final "briefing" on setting up the booths the night before the Westival, decorating the next morning, procedure for handling monies and for closing booths, and data needed for "after Westival reports," which will be of inestimable value to the organization next year.

ACTIVITY INCREASE

Not only are the chairmen all set but activity is rapidly reaching a fever pitch in the Lafayette P.T.A. as a whole. The neighborhood sewing party groups are coming through with flying colors—and we hear from Bazaar Bargains chairman, Mrs. J. F. Teuscher, that quantities of beautiful basket bags—made, if you please, of lovely drapery remnants—will be made available to smart Christmas buyers.

She also reports that such items as the following are rolling in for her booth—clever dish towel sets, guest towels, covered coat hangers, ribbon decorated safety match folders, nine darling bridge prizes, jewelry, hair ribbon bows and lots of good-sized remnants of draperies that are just right for sofa pillows or chair coverings.

APRONS

Mrs. O. R. Hayes, Apron Concession chairman, will be in the same room, and we have never seen so many lovely and different types of aprons in one place before. Even "last comers" will do well here!

Not to be outdone by anyone, the Green Thumbers have been busy in their little groups, and from Chairman Mrs. Glen Logan we hear that they can positively take care of a great many of the needs of the home gardeners for potted slips of shrubs and perennial plantings. She will also have on hand many little choice and different house plants.

XMAS DECORATIONS

Beautiful Christmas decorations ideas will be shown in sample form and the makings sold separately so that you can have the fun of creating. Likewise driftwood planters will be displayed and the driftwood, moss, rocks and succulents sold individually. Herbs will also be featured, and, of course, the good old favorites, chrysanthemums, coral bells and daisies and their ilk will be in abundance.

Mothers of the 8th graders are going to be more than busy roasting turkeys and hams for the swell dinner that Mrs. E. E. Firestone and her committee have selected.

There seems no end to the preparations that are being made by this dinner committee to ensure at least 900 people a delicious meal as well as a comfortable place in which to eat it.

And lest anyone forget to come to dinner, there will be a constant reminder in the form of sandwich men patrolling the school grounds!

Mrs. Lyon herself has a collection of about 200 dolls.

D.A.R. GARDEN PARTY

On Monday, September 25, starting at 1 p.m., the Lyon estate will be the setting for a dessert garden party of the Acalanes Chapter, Daughters of the American Revolution. The party will honor Mrs. Charles Haskell Danforth of Palo Alto, D.A.R. reporter general to the Smithsonian Institute; Mrs. Edgar Atkinson Fuller, California state regent, and Mrs. Bruce Livingston Canaga, California state vice-regent.

The program will include a skit by David Fulmer of the Strawhatters. Proceeds of the affairs will be used for the benefit of D.A.R. projects sponsored by the Acalanes Chapter.

Barbara Soukup Becomes Bride Of Robert McNeil

Lafayette Community Church was the scene at 3 o'clock last Sunday afternoon of the wedding of Barbara Soukup and Robert McNeil. Rev. Harry Shaner officiated at the ceremony.

The bride was attired in a floor-length gown of white taffeta, and her finger tip veil was held by a Juliet cap. She carried a bouquet of cascading double white carnations and stephanotis with a center arrangement of green orchids. Barbara was given in marriage by her father, John L. Soukup.

MATRON OF HONOR

Mrs. Vernon Galbraith of Stockton, a cousin of the bride, served as matron of honor, while the bridesmaid was Mrs. Orville Jones of Lafayette. Both attendants wore taffeta gowns of peacock blue fashioned like that of the bride. They carried cascades of yellow "fugi 'mums."

Little Sandra and Pamela Galbraith, daughters of the matron of honor, preceded the bride down the aisle in miniature gowns of yellow taffeta fashioned exactly like those of the adult attendants. Each little flower girl carried a basket of yellow baby chrysanthemums.

COUSIN BEST MAN

William McNeil served as best man for his cousin, while the groom's two other cousins, James Borgeson and Richard McNeil filled the usher roles for the occasion. Robert McNeil is the son of Mr. and Mrs. Stuart McNeil of Reliez Station Road.

The bride's mother, Mrs. John L. Soukup, wore a gown of powder blue with pale pink accessories for the ceremony, while the mother of the groom, Mrs. Stuart McNeil, wore an afternoon dress of a soft rose hue and her accessories were of navy blue. Both mothers wore corsages of pink carnations and delphiniums.

GRANDMOTHERS

Attending the wedding were grandmothers of both the bride and groom. Barbara's grandmother, Mrs. John Gray, came from Page, Nebraska, for the ceremony. Mrs. Gertrude McNeil, a Lafayette pioneer, is Robert's grandmother. Both of the ladies were beautifully attired and wore corsages of lavender gladiolas for the occasion.

After the wedding ceremony a reception was held in the parlors of the church and later in the afternoon a buffet supper was served in the patio of the Soukup home on Moraga Boulevard for over 100 relatives of the young couple.

Mr. and Mrs. Robert McNeil are now honeymooning in Canada and will return to make their home on Reliez Station Road in Lafayette.

Teachers to Hear Program Plans of New Association

Tentative program of the organization for the school year was worked out last week by the Board of Directors of the newly formed Lafayette Teachers Association, and will be presented to teachers of the Lafayette School District next Monday.

First organizational steps of the association were taken shortly before the close of the last school year. With the early objective of affiliating with the California Teachers Association, the local group has four main purposes:

(1) Promotion of the highest type of professional practices, including standards for and preparation of teachers; (2) encouragement of teacher participation in solution of school problems; (3) promotion of teacher welfare; (4) interpretation of the work of the schools to the public.

COOPERATION

Cooperation with the P.T.A. and other community organizations is planned in connection with the organization's activities.

Monday's meeting, in the nature of an organizational gathering, will be at the Lafayette Grammar School, in conjunction with the monthly district meeting of teachers which will be presided over by Superintendent W. B. Ellis. The gathering will start at 4:15 p.m., one phase of it will be devoted to the Teachers Association and the other phase to the regular district session.

BOARD MEMBERS

Association board members, chosen last May, include the following officers and committee heads:

Mrs. Mary Ola Burkhead of Lafayette School, president; Wallace Moreskine of Lafayette School, vice-president and head of public relations committee; Mrs. Ruth Anderson of Vallecito School, secretary; Fred Davidson of Lafayette School, treasurer; committee chairmen — Mrs. May Summers of Vallecito School, legislative and professional relations; Mrs. Bernice Smith of Montecito School, social; Miss Alice McMaster of Lafayette School, welfare.

Journey's End Comes to Duke

Ten-month-old Robert Harris, son of Mr. and Mrs. Phil Harris of 3352 Beechwood Drive, hasn't had his pet for almost a week. And although Bobbie is too young to understand what happened, he feels pretty lonely without Duke.

What's more, Duke won't ever play with Bobbie again. Maybe Bobbie doesn't realize that, but he'll probably get the idea as time goes on. That won't make it any easier, of course.

Duke was a three-month-old Llewellyn puppy Bobbie's parents had obtained for him. Ever since Duke was a wee, tiny one he was Bobbie's faithful companion. The yard in which Duke frolicked was fenced in—but once in a while, with puppy-curiosity, Duke would wander a bit into the nearby wide world.

Last Saturday morning Duke was found dead. The veterinarian said it was an unmistakable case of strychnine poisoning.

Mr. and Mrs. Harris reported the matter to the sheriff's office, and a deputy came around and asked questions and took notes. And the grownups—for Bobbie's sake—are trying to act as if nothing bad has happened.

Moraga Valley Picnic Sunday

Moraga Valley Community Club, organized during the summer, will hold its first family picnic Sunday at St. Mary's picnic grounds.

Mrs. Hunt Is Home Hostess

The Lafayette Home Department will hold its regular monthly meeting next Thursday, 1:30 p.m. at the home of Mrs. R. H. Hunt on Upper Happy Valley Road.

The regular business meeting will be followed by an informative talk on "Lamp Shades" by Miss Ardith Osborn, home advisor.

Capacity Crowd At Forum's Tea

A capacity gathering at Lafayette Town Hall Wednesday afternoon marked the initial opening of Fall activities for the Lafayette Forum. The affair, in a setting carrying out the California Centennial theme, was a reception and tea, planned so women could get acquainted with each other and with the various sections of the Forum.

Flags of the United Nations decorated Town Hall for the occasion. Colorful displays demonstrating their individual activities were used at the tables set up for each Forum section, with group chairmen and co-chairmen in charge to explain their program.

HISTORICAL RECORDS

Also exhibited were old albums and historical recordss of the Forum, including the minutes of the first meeting of the group.

An important part of the program was the introduction of charter members and past presidents of the organization. Past President Mrs. Fred Vollmer, who also performed the duties of program chairman for seven years, was presented with a life membership and the new Forum insignia which was designed by Mrs. Robert Hodel.

COMEDY SONGS

Mrs. Dan Welty, accompanied at the piano by Mrs. Carbon Weber, presented a group of dramatic comedy songs as a surprise feature that brought peals of laughter from the audience.

Why Bill Bibb and most P. G. and E. people like their jobs

W. Y. "Bill" Bibb began as an errand boy 30 years ago, is now a foreman in the Fresno Transformer Repair Shop. While getting ahead with P. G. and E., Bill took time to become a fine chef, get in some hunting and fishing, manage an amateur baseball club.

Edward M. Linnell, Fall River Mills, California, was a blacksmith and welder with us before he retired on a pension. Ed is famous for his work with corrective horseshoes, and still runs a small forge in back of his home.

The fact that P. G. and E. people like their jobs is one reason why they do their jobs well. And that's important to every community we serve.

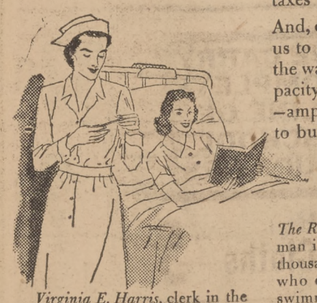

The job they do has been greatly responsible for keeping your gas and electric rates among the lowest in the nation. It's helped put an annual payroll of nearly $70 million into Northern and Central California. And from the projects P. G. and E. people have built come federal, state, county and local taxes amounting to $40,278,000 in 1949.

And, of course, their teamwork has enabled us to add 1,156,400 new horsepower since the war. By this time next year our total capacity will be nearly 4,900,000 horsepower—ample for our needs today, a good base to build on for the growing years ahead.

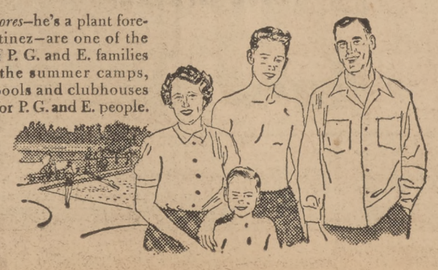

P·G·and·E·
PACIFIC GAS AND ELECTRIC COMPANY

Bill Johnston, estimator in our Sonora office, has been with us eight years—with time out to fight a war. His job is surveying farms for electrification. Bill is enrolled in classroom courses open to all employees—a young man on his way up.

Virginia E. Harris, clerk in the General Office Engineering Department, was a pretty sick girl for two months last winter. But P. G. and E.'s cooperative Benefit Plan took care of practically all her expenses. And she's planning to catch up on the skiing she missed last season when the first good snow hits the hills.

The R. J. Moores—he's a plant foreman in Martinez—are one of the thousands of P. G. and E. families who enjoy the summer camps, swimming pools and clubhouses maintained for P. G. and E. people.

Don Varsity Really Starts Shaping Up

The Acalanes Don varsity for 1950 is beginning to take shape as practice continues to enable coaches to move players into the proper slot.

The backfield, like the line, finds keen competition, with no standouts but good, even competition for each spot.

QUARTERBACK SPOT

Ken Green and Vern Osborne continue to fight it out for No. 1 quarterback.

Roger Linn is being shifted to left half, where Joie Pearson holds an edge over Ed Broome and Al Culp.

FULLBACK RIVALRY

Eddy Grueb holds the fort at fullback, with Rod Rainer, a converted halfback, coming fast.

A new move finds Vern Osborne taking a crack at the fullback spot.

On the line, Coach Stevens continues to do a bit of juggling in order to find the best seven.

CENTER TUSSLE

Richard Ting is at center, with Andy Moveen, the surprising sophomore, pressing him.

Buzz Williams, Gary De Anglis, Jerry Price and Bob Stewart are in a nip and tuck battle.

At the tackles John Bovron has moved up with Renville Hawkins in hot pursuit. Bob Boghesani holds an edge at right tackle, with Bob Ostrom pressing him.

At ends, Darrell Crossman, Bob Henderson, Bill Weber and Bob Daniels appear to be on the inside rail.

SCRIMMAGE TODAY

A game scrimmage is set for today and will go a long way in enabling coaches to make a tentative starting eleven.

The initial game is set for next Friday night, September 22, when El Cerrito comes to Acalanes, with the kickoff at 8 p.m.

St. Mary's Reopens Placement Bureau

Because of the success of its Placement Bureau, St. Mary's College has reopened this important college department. The bureau started its active service with the beginning of the college autumn sessions Wednesday.

Last year, the first time St. Mary's College made any attempt to carry on this collegiate effort, the students, as well as their employers, found it more than satisfactory. As many as 180 students had part-time employment in and around Orinda, Lafayette, Walnut Creek and Piedmont. Graduate students obtained full-time work in Oakland, Berkeley, San Francisco and Los Angeles.

For part-time employment, the period is generally from 1 to 5 p.m. on all afternoons and a full day on Saturdays. The charge is a dollar an hour. Students are available for general housework and gardening.

St. Mary's is not the only college where the Placement Bureau is found profitable. Throughout the nation many universities and colleges are following this method of helping their students. Graduates who have worked their way through college realize the help this effort on the part of their Alma Mater gave them.

General information on the Placement Bureau at St. Mary's may be had from Brother Henry, director of placements, Moraga 4411.

Kin to radar, "Jump-Jump" hurls television from point to point on radio beams aimed like a searchlight.

WEST'S FIRST TELEVISION NETWORK
Relay system to operate between San Francisco and Los Angeles

1. Amplifying equipment like this is connected with the hornlike antennas above to relay television programs or long distance telephone calls from one part of the country to another. Engineers call it micro-wave...for it uses high-frequency radio waves, and it gets its nickname, "Jump-Jump," because the beams leap-frog between relay stations located on mountains 28 to 65 miles apart.

2. Television programs can be relayed from one point to another by micro-wave or by coaxial cable. The first leg of a Western television network will begin operating between San Francisco and Los Angeles September 15 over the newly-completed "Jump-Jump" system. And we're going ahead with surveys and experiments to extend the television network to other areas of the West.

3. The research which produced this micro-wave system was conducted in Bell Telephone Laboratories ... originators of so many electronic developments. Hundreds of them have led to better telephone service at lower cost...and have played a major part in making your telephone the big value it is today. For in spite of rising prices, telephone rates have gone up much less than our costs of providing service. On the average, our prices have gone up less than half as much as the cost of living generally.

Your Garden

That Ever-Popular, Lovely Perennial, The Peony, Has a Place in Your Garden

By BERT WRIGHT

THERE IS A PLACE in every home garden for the peony, that popular garden perennial.

In spite of the fact that the peony shoots off its display of blooms in a relatively short number of weeks, its perfection of dark green and arching foliage makes it a valuable plant for planting in the middle range of perennial borders or in beds by themselves.

Among garden perennials peonies rank high, with giant blooms rivaling the largest chrysanthemums in size and cutting quality.

The herbaceous type of peonies that die down in the autumn are the sort most commonly grown. They offer a wide range of colors, from dazzling white to deep maroon, with various types of blooms. Peonies make an excellent companion flower with tall-bearded iris.

ROOTS MAY BE PLANTED from the first of September until hard frost. Prepare the ground one or two weeks ahead of planting by spading deep (12 to 14 inches).

Incorporate plant food throughout this depth at the rate of one pound (one pint) per 25 square feet of area, or one tablespoonful under each plant.

Select root divisions with at least three eyes and set so that the buds are two or three inches below the surface of the soil, and three to four feet apart.

Planting can either be in full sun or in partial shade, but not too close to trees or shrubs unless both peonies and trees are fed liberally. Mulching the first winter is advisable.

START CULTIVATION early. Feed plant food soon after growth starts. Use one rounded tablespoonful around each plant and cultivate it into the soil around the plant.

This feeding is important since the peony plant makes a very rapid early growth and needs this feeding to produce foliage and blooms.

For larger blooms, disbud the plant, allowing only the terminal buds to develop. For a quantity of flowers and a noticeable longer flowering period leave some of the lateral buds.

DIVIDING is not necessary until the flowers grow small and the stems crowded. In some cases this may be for 10 years or more. Three-year-old plants can be divided for securing roots to increase stock.

In digging, loosen the soil 18 to 20 inches around the plant and at least 12 inches deep, lift the clump carefully. Let the root clump dry in the sun and then shake off the soil, wash the roots free of dirt and cut stems to two inches.

Start working the roots until they show where they easily separate, then cut at these points with a knife. Leave at least three eyes per division.

DISEASES — Root knot, blight and leaf spot are common peony diseases.

As a preventatative measure cut off stalks and burn all of the top growth in the fall. The use of an all-purpose insecticide and fungicide during the spring and summer will prevent most peony insect and disease troubles.

In case of a bad infestation of root knot, lift the clump and place in a 30-minute bath of water at 120 degrees F. Avoid applications of manure around stems and crown. Remove any mulch early in the spring. These conditions are favorable for fungus growth.

A GARDENER must be familiar with the various kinds of peonie in order to use them effectively.

Get out your garden catalog or other reference books and plan your plantings before buying roots.

Diamond K Sez . . .

THIS IS A VERY busy period of the year around your garden.

It's the ideal time for giving that hedge the final pruning for the summer, which should suffice until next spring. This is also the ideal time to start your pruning program among your spring flowering shrubs and the "after harvest" pruning of fruit trees.

It is also a good time to prune the older cane wood from loganberries, boysenberries, nectarberries, etc.—as it encourages new growth.

WHILE YOU ARE working on your garden these days, are you giving any thought to the football season? Yes, King Football bows in, in another ten days or so and with it, the run of pre- and post-game festivities.

We have received our first shipment of fireplace grates. They are available in assorted sizes, from 18" to 36" wide. Drop in and see them.

While you're at it, you'll be needing wood for your fireplace. Seasoned oak and fir in various length and sizes are available now, so order yours.

A WORD OF THANKS. We would like to thank all of our customers for their patience on our slow delivery of certain "critical" items! In upholding our service policy, we will make every effort to continue to serve everyone we can and make deliveries as soon as possible. Thank you again.

The Ernest Drews Call on Cottons

Mr. and Mrs. Ernest Drews and son Carl had a wonderful month's vacation driving to Omaha, visiting relatives and friends and sight seeing along the way.

When going through Arizona they drove to Oak Creek Canyon and called on the Joe Cottons who had come there from Orinda a few days before. They found a very happy couple who are starting their new venture in berry-raising with high courage and optimism, feeling they are bound to succeed because of the excellent soil of their five acres, the fine climate, abundance of water and nearness of a market.

Then, too, the beauty of the canyon is well known. The Drews' return was through Death Valley's lowlands and then through the heights of Tioga Pass.

The fall project of this group will be working for Wood-Gatherer's rank. On September 23 they will have a ceremonial meeting. Some time during the month they will enjoy an overnight outing. Meetings now are held Saturday afternoons.

Pay Raise Issue, Marty Road Dispute Engender Heat at Sewer Board Meeting

By POLITICUS

The smoldering conflict on whether to raise the pay of Engineer-Manager John L. Mason from $9,000 to $10,800 a year came into the open again at last week's directors' meeting of Central Contra Costa Sanitary District.

True, the flareup was not from the board members, but the words of Harold Furst of Lafayette, appearing as an interested citizen, engendered enough figurative heat to warm the district office in Walnut Creek on many a figuratively cold evening.

Furst, a staff member of the School of Business Administration of the University of California and administrator for a joint educational program for lawyers sponsored by the State Bar Association and U.C., started out by saying the sanitary district was "fortunate in having people to serve the public interest with no gain to self."

'DISTURBED'

But he proceeded to tell the board at its September 7 session that the board is obliged "to follow sound management practices" and that he was "disturbed" by reports that the board is considering raising the salary of one of its employees from $9,000 to $10,800 per year.

Although he stated his remarks were not "personal," he left no doubt that he was referring to Mason's salary.

Furst said a survey by him showed that "even the present salary of $9,000 is out of line" but added it would be unfair to reduce the salary — and also unfair to the taxpayers to increase the salary.

MAKES COMPARISONS

Comparing them with Mason's monthly pay of $750, Furst cited the following:

Berkeley's assistant city engineer, who lets contracts for streets and sewers, who has considerable responsibility and freedom on his job and who is a registered civil engineer, is in the monthly salary bracket of $475-$575.

Berkeley's director of public works is in the $650-$750 category. (A $10,800 yearly salary means $900 a month).

Furst said that if the salary increase goes through, it would not be consistent with good management practice. Such board action (granting the salary increase) would, he pointed out, "undermine public faith in this and like boards."

No discussion of the matter by either the board or Mason followed.

MARTY LANE DISPUTE

Earlier in the meeting, sharp words were exchanged over whether Marty Lane, a private road off Happy Valley Road in Local Improvement District 3, had been restored to its original condition after sewer work there was completed last Spring.

Attorney Vernon Patterson of Lafayette, representing Sidney McGaw, stated that McGaw and three neighbors had written a letter to the district board last January protesting the condition of the road as left by the Downer corporation.

APRIL HEARING

Patterson said that Mason had assured McGaw that he did not have to appear at the board's protest hearing in April, and that in August, when McGaw and his three neighbors were suing the Downer firm in small claims court for $100 each, Mason testified that the Downer Corporation was released from responsibility once the Sanitary District had accepted the work.

At one point during last week's meeting Director Harold Toland interrupted Patterson by objecting to what he called "publicly reprimanding an employee of the district" on a matter of board responsibility.

However, Board Chairman R. E. Wadsworth requested Patterson to continue, after some prodding by Elliott Johnson.

SCHEDULE'S STATEMENT

The prepared schedule for the September 7 meeting, referring to a letter from Patterson on behalf of McGaw and his neighbors, stated that, according to the minutes of the protest hearing, McGaw's letter of complaint "was present and the name of the complainant was entered into the minutes."

"It appears further," the prepared scheduled continued, "that the board accepted the advice of the engineer that the work was complete and in accordance with the specifications."

COUNSEL ABSENT

John Nejedly, counsel for the district, was in the east last week, but the board schedule noted that Nejedly had given an opinion "to the effect that the protest of Mr. McGaw was in effect overruled and must be considered as having been denied and that no further action by the board can be taken on the matter."

However, the entire matter was put over to an adjourned meeting next Thursday night, at which Nejedly is expected to be present.

Civil service setup for district employees, within their respective classifications, will be based on date of their first connection with the "enterprise," the board decided. This means their original date of employment, whether with the district or with the C. C. Kennedy engineering office prior to establishment of the district's own engineering department.

The civil service status, effective since September 1, affects all personnel except the directors, the secretary, the counsel and the engineer-manager.

CALGARY STAMPEDE

Arrangements for the Contra Costa Sheriff's Posse's participation in the Calgary Stampede in Canada have been made by John A. Miller.

The mothers of the nursery school children are invited to meet next Wednesday, September 20, from 2 to 4, at the home of Mrs. Ritchie C. Smith, 8 Santa Lucia Road, Orinda, to be introduced to the directors, the new officers and new members.

Mrs. Thomas Cullen will be hostess for the afternoon, assisted by the members of the board.

Girl Scout Confab Here Next Monday

From 10 a.m. to 3 p.m. Monday the Diablo Girl Scout Council will hold a leadership conference. Leaders and other Girl Scout workers will take part in the conference, which will be open to the public.

Discussion groups will take up the following topics: Troop committees, senior scouting, troop finance, "Where do I belong in Scouting?" and seventh and eighth grade leaders.

After lunch (coffee will be served but participants are asked to bring their own lunches), there will be a general assembly and demonstrations of skills and workshops. Also on the afternoon program will be a Girl Scout movie.

New Phone Book Has One Listing For Diablo Area

New Contra Costa County telephone directories showing all Concord, Lafayette, Moraga, Orinda and Walnut Creek telephone numbers in one convenient combined list for the first time have been mailed subscribers here, it was announced today by H. C. Greenhalgh, telephone company manager.

Listings in the new book, which serves all of Contra Costa County with the exception of Richmond, total 28,390, an increase of 2,523 over the previous issue, said Greenhalgh. Initial distribution will total 35,220 copies.

Greenhalgh suggested subscribers become acquainted with the introductory pages of the new book, which include important information on toll free direct dialing from Lafayette to Walnut Creek, established the first of September. He also urged subscribers to throw away all previous issues of the directories, since many numbers shown in them have been changed during the past year.

Steps Taken to Form Disaster Committee

Chamber Votes to Coordinate With 4 Other Groups

Lafayette Chamber of Commerce Monday voted to ask the Lafayette Improvement Association, Lafayette Forum, Lafayette American Legion and the Red Cross to join with the Chamber in forming a Lafayette Disaster Preparedness Committee.

Mrs. Juanita Waite presented this as a recommendation of the Chamber's Civic Betterment Committee.

The board of directors, meeting at the Curve restaurant, discussed the recent meeting with County Defense Chairman James Long. Members pointed out there is a need for a coordinating group to work with the county and the people of Lafayette. This joint committee can do preliminary work before over-all planning is announced by the county.

The directors appointed C. J. Herman as its representative on the committee.

Stressed by the group was the importance of a liaison committee between the county disaster council and Lafayette.

Acalanes Parents Club Says 'Welcome'

Plans to welcome parents of new Acalanes students to the Acalanes Parents Club next Monday were the main order of business at the club's executive board meeting recently.

Arrangements were made to present each parent with a colored slip with his or her name on it, along with that of the student or students they represented. Teachers are to have slips of a different color, identifying themselves. To augment these arrangements, a committee is ready to greet each member and welcome him to the group.

GETTING ACQUAINTED

The meeting, in line with the main business of making the newcomers acquainted with the school and how it operates, will be given over to a brief welcome and explanation by Kenneth Courtright for the Parents Club; S. W. Walgren, dean of boys; Miss Lily Lahti, dean of girls, and Neil Parsons, principal.

Mrs. Charles Neuman, chairman of the refreshment committee, announced that refreshments will be served at the first meeting by the executive board, and would be of the home-made variety.

MORE SCHOLARSHIPS

Announcement was made that in addition to the planned two scholarships given by the Parents Club there were sufficient funds in the treasury to establish a third, special scholarship, and that another had been presented anonymously.

Mrs. S. H. McAllister announced that through the cooperation of the Lafayette SUN she had been writing personal and social items during the summer and had approximately $20 toward a scholarship for next year, and that plans were under way to engage the journalism class in this enterprise as soon as it becomes well enough established.

Also at the meeting, it was decided to adhere to the policy of previous boards in not having solicitation for funds for other organizations at Parents Club meetings.

Hope was expressed that next Monday's meeting would be well attended especially by parents of freshmen or newly arrived students, so that they might be introduced to the regime of their high school in this practically painless manner.

Drive carefully—the life you save may be your own.
